

D.C.SHARATH VENKAT

Binghamton, NY | (410) 564-6024

sharathvenkat.dc@gmail.com | <https://portfolio-sharath.vercel.app/>

AI Engineer, LLM Developer, MLOps, Architect, Data Analysis & Engineering, Robotic Process Automation (RPA), Full Stack Developer, UI/UX, Web & Mobile Development

SUMMARY

Recent M.S. Computer Science graduate with hands-on experience in AI, MLOps, and Full Stack Development. Proven ability to build intelligent applications using LLMs, GPT, and modern frameworks. Eager to contribute in an AI/ML engineering or software development role.

EDUCATION

BINGHAMTON UNIVERSITY, NY

Master of Science in Computer Science

ANNA UNIVERSITY, India

Bachelor of Technology in Information Technology

Certifications

- LLM Engineer
- Full Stack Development
- Robotic Process Automation
- Embedded Systems
- Google Certified: Cloud Engineer & Architect, MLOps
- Unified Technology Learning Platform (UTLP)

TECHNICAL SKILLS

Programming Languages: C, C++, Python, HTML/CSS, SQL, Java, JavaScript, Kotlin, XML, TypeScript

Framework and Libraries: Node.js, Express.js, Java Spring Boot, Streamlit, LangChain, LangGraph

Software and Tools: Android Studio, Figma, Git/GitHub, .Net, WordPress, Linux, Power BI, Tableau, JIRA

WORK EXPERIENCE

VMware IT Academy – Virtual Internship

Software Development Intern | November – December 2022

- Worked on real-world projects using Java Spring Boot and REST APIs.
- Engaged in daily code development, debugging, and iterative deployment tasks.

PROJECTS

AI Resume Analyzer – *Streamlit, OpenAI GPT*

- Built a web app that provides structured feedback on resumes using NLP and GPT models.
- Enabled job-seekers to optimize content, skill emphasis, and job-role alignment.

AI Image Classifier – *TensorFlow, OpenCV, Streamlit*

- Developed an image classification app using MobileNetV2 to return top-3 predictions.
- Implemented efficient image preprocessing and model caching for real-time performance.

Interactive Educational AI Chatbot – *NLP, Python*

- Created a virtual learning assistant to answer student queries and personalize content.
- Integrated real-time response handling and feedback delivery.

Seamless Entry and Exit Tracking for College Buses with RFID – *IOT, Arduino Uno*

- Developed an IoT solution for real-time tracking of student entries and exits on college buses.
- By using RFID scanners, it records entry and exit times, along with bus identification numbers.

LEADERSHIP & COMMUNITY

- **Lead Organizer – Innovision'22:** Organized tech events and student-industry workshops.
- **Committee Member – Youth Red Cross (2020–2024):** Led community initiatives and disaster relief programs.
- **TNCA League Cricketer & College Team Player:** Represented Tamil Nadu Cricket Association league cricket and college cricket team, demonstrating teamwork, discipline and competitive spirit.
